Fort Collins, CO – Poudre Fire Authority was called to a report of smoke coming from a neighbor's house at 2105 Liberty Drive on the northwest side of Fort Collins. When the first crews arrived they found smoke coming from the rear of a one story, wood-frame, single-family residence. Crews immediately made entry into the residence to find a fire in the rear portion of the residence and in the attic. An aggressive interior attack and a search for occupants was initiated. The search turned up no occupants. Additionally crews had to cut holes in the roof to release smoke and hot gasses from the attic area.

A large portion of the living area of the residence suffered fire damage along with most of the attic space. There was smoke and heat damage throughout. Crews were able to save the remainder of the residence.

No occupants were home at the time of the fire.

An investigation is underway to determine the origin and cause.
