Answer: You do not need a webcam to take the online test. Candidates are expected to take the test without assistance and without the use of a calculator. Measures have been put into place to confirm that your online test score accurately depicts your skills in the areas measured by the test. If you are unable to demonstrate consistency between your online test results and those integrity measures that the department may elect to use (i.e., a confirmatory test, a polygraph, etc.), you will be removed from the recruitment process.
